Professor Perry Schoenecker

Dr. Perry Schoenecker is a professor of orthopaedic surgery at Washington University School of Medicine.

His practice focuses on general pediatric orthopaedics of both traumatic and non-traumatic causes. He specializes in congenital and developmental lower extremity problems of the hip, knee, foot and ankle, as well as the adolescent and young adult hip.

His research interests include congenital, developmental and traumatic deformities of the lower and upper extremities. He is an author of over 180 peer-reviewed articles.
